Problem - Solution Fit Template

The Problem-Solution Fit canvas helps align platform capabilities to the direct pains and gains of users (Patients and Doctors).

1. Value Map (Platform Capabilities)

Products & Services

- MERN healthcare scheduling platform with Patient Portal, Doctor Portal, and Administrator Console.
- Secure digital medical locker for past clinic reports.
- Digital clinical prescription generator.

Pain Relievers

- Automatic checking for double-bookings.
- HttpOnly cookies and JWT roles middleware protecting medical history.
- Vetting queues to verify practitioner credentials prior to search display.

Gain Creators

- Light/Dark mode responsive interface.
- Automatic in-app alerts on status approvals.

- Instantly readable digital prescriptions.
-

2. Customer Profile (Patient & Doctor)

Customer Jobs

- *Patient:* Find cardiologists/dermatologists, check pricing, book slots, and show reports to doctors.
- *Doctor:* Review calendar, accept/reject patients, and write prescriptions.

Pains

- *Patient:* Double bookings, privacy leaks, unverified doctors, clinic queue waiting.
- *Doctor:* Administrative workload, disorganized slots, patient histories lost in emails.

Gains

- *Patient:* Safe digital storage, instant verification tag on doctors, clear prescriptions.
- *Doctor:* Structured schedule dashboard, quick access to reports, clean prescription drafts.
